| 10020678  | TUFFIE 5 CLEANING AND DISINFECTING WIPES | Tub/300 | <b>\$17.50</b> |

### TUFFIE and TUFFIE 5 Refill Dream Dispenser

Organise your wipes to maximise space and minimise risk of cross infection with a Tuffie Refill Dream Dispenser. Wipes are secured in a fixed location and the automatically closing lid ensures wipes do not dry out.

**\$48**

EBOS Code: 10020760

### TUFFIE Detergent Wipes

Tuffie Detergent Wipes are perfect for using anywhere where general cleanliness is required quickly and conveniently. The need for cleaning is imperative and the Tuffie Detergent Wipes are a simple, effective way of removing dirt and grime. Suitable for infection control, Hospitals, Aged Care and/or General Practice facilities.

The Tuffie Detergent wipes are designed with an improving cleaning performance with non-streak formula, faster drying time and active odour control, making the Tuffie wipes ideal for use on mattresses, beds, commodes, door handles, hoists, trolleys and other general equipment.

**AsGUARD® Flex Fabric Fixation Tape,  
Non-Woven**

AsGUARD® Flex Fabric Fixation Tape is a “cut to length” self-adhesive, non-woven tape that is highly comfortable, conforming and breathable.

It is suitable for fixations of dressings and access devices, and acts as a skin protective layer under more aggressive adhesives. Its flexibility also makes this tape ideal and comfortable against joints and difficult contour areas without movement restriction.

| EBOS Code | Description                           | UOM  | PRICE          |

# A DERMABOND® product for every procedure

## DERMABOND® is a precisely balanced formulation unlike any other TSA on the market

Our proprietary formulation is a precisely balanced combination of three carefully sourced components. There is no other brand with the same formula.

Embedded initiator technology to avoid clogging.

Advanced Silicone Technology for easy activation and expression of adhesive.

When used in addition to sutures, DERMABOND ADVANCED Adhesive was shown ex vivo to add 75% more strength to the wound closure than sutures alone.<sup>1</sup>

95 sec drying time with single layer application.

## DERMABOND ADVANCED®: Fortify your skin closure in 3 ways and achieve improved patient outcomes

Provides a microbial barrier with 99% effectiveness for 72 hours in vitro against organisms commonly responsible for SSIs.<sup>2</sup>

| Code     | Description              | UOM    | PRICE |
|----------|--------------------------|--------|-------|
| 10014192 | DERMABOND ADVANCED 0.7ml | Box/12 | \$385 |

Adds strength, provides a protective barrier and inhibits bacteria.<sup>3</sup>

Just the right amount of adhesive for the majority of emergency room applications.

Length of wound for one ampoule 4cm. Layers required 2.

Available in pack of 12 ampoules.

## DERMABOND® Mini: For smaller incisions, minimally invasive procedures

The trusted proprietary formulation of DERMABOND ADVANCED® in a smaller size. Ideal for small wounds and single port incisions.

| Code     | Description           | UOM    | PRICE |
|----------|-----------------------|--------|-------|
| 10014189 | DERMABOND MINI 0.36ml | Box/12 | \$249 |

2-octyl cyanoacrylate liquid adhesive.

Ergonomically designed pen-style applicator.

Self-adhering, tappable mesh for ease of use, even tension distribution and added strength.

Available in 22cm, 42cm and 60cm lengths for a variety of incision lengths.

## PRINEO: Dermabond skin closure system is a non-invasive alternative to skin sutures and staples.

Combines the proven strength, flexibility and microbial barrier of DERMABOND ADVANCED® with the security of a self-adhering mesh to facilitate skin closure and an optimal healing environment.<sup>4</sup>

| Code     | Description       | UOM   | PRICE |
|----------|-------------------|-------|-------|
| 10014190 | PRINEO 22cm 3.8ml | Box/2 | \$297 |
| 10014120 | PRINEO 42cm 3.8ml | Box/2 | \$301 |
| 10014194 | PRINEO 60cm 3.8ml | Box/2 | \$301 |

## Dressings

### AQUACEL® Ag+ Extra™ Dressing

AQUACEL® Ag+ dressings are antimicrobial primary dressings used for wounds that are infected or at risk of infection. They are designed to manage the 3 key local barriers to healing - exudate, infection and biofilm. AQUACEL® Ag+ dressings incorporate proven Hydrofiber™ Technology and Ag+ Technology - a unique ionic silver-containing, antibiofilm formulation. AQUACEL® Ag+ Extra™ dressing is comprised of 2 layers of Hydrofiber™ Technology stitch bonded together making it 9x stronger and 50% more absorbent than standard AQUACEL® Ag dressing.

AQUACEL® Ag+ Extra™ dressing may be used for the management of:

- Wounds as a barrier to bacterial penetration of the dressing as this may help reduce infection
- Wounds where there is an infection or an increased risk of infection
- Diabetic foot ulcers, leg ulcers, (venous stasis ulcers, arterial ulcers and leg ulcers of mixed aetiology) and pressure ulcers/sores (partial and full thickness)
- Surgical wounds
- Traumatic wounds
- Wounds that are prone to bleeding; oncology wounds with exudate
- Wounds where bacteria are a suspected cause of (or a factor in) chronicity /non-progression.

## Hypafix® Dressing Retention Tape

Hypafix is a skin-friendly, non-woven tape used for wide area dressing fixation. The dressing retention tape transversely stretches, is highly conformable and easy to apply, even on difficult joint areas. It is easily cut to shape to suit patients treatment requirements.

- Low-allergy polyacrylate adhesive tape
- Air and moisture vapour permeable
- Good initial and long term adhesion
- Polyester non-woven backing
- Transverse stretch provides excellent conformability, even on contoured body areas such as knee, elbow and shoulder
- The tape is easily cut to required shape and size so no unnecessary wastage
- Complete primary dressing coverage reduces risk of contamination
- Virtually painless removal without leaving adhesive residue
